

Facility Fact Sheet

Safety-Kleen Systems Greer Greer, Spartanburg County, South Carolina

Draft Hazardous Waste Permit
Facility ID# SCD 981 031 040

The South Carolina Department of Health and Environmental Control (DHEC) has written a draft Hazardous Waste Permit for the Safety-Kleen Systems Greer (Safety-Kleen) facility, in Greer, South Carolina.

The draft permit has been written to comply with the South Carolina Hazardous Waste Management Regulations and the Resource Conservation and Recovery Act (RCRA), as amended by the Hazardous and Solid Waste Amendments.

This fact sheet explains DHEC's hazardous waste permitting process and the conditions of the draft permit.

I. Hazardous Waste Permitting Process

DHEC regulates hazardous waste activities at permitted facilities in South Carolina.

The permitting process gives DHEC and other government agencies the opportunity to evaluate the ability of a facility to comply with state and federal regulations.

After the renewal application is received and determined to be complete, DHEC writes a draft permit containing all conditions that the facility must meet.

Interested citizens are given forty-five (45) days to review and comment on the facility's draft permit before DHEC makes a final decision on the draft permit.

DHEC encourages all interested persons to participate in our permitting process.

II. Facility Description

The Safety-Kleen facility is a collection and storage location for a variety of solvents and other containerized wastes. These wastes are generated from parts washing activities, dry cleaners, paint wastes and various oil and gasoline filters.

The current site has been used in a commercial capacity since 1985.

III. Facility's Hazardous Waste Permit History

The initial hazardous waste Permit for storage of waste in containers and tank was received by Safety-Kleen on December 21, 1990. Safety-Kleen applied for and received a renewal on September 19, 2002.

IV. Draft Permit Requirements

The draft permit contains conditions for the following:

- 1. The design and operations of permitted waste storage in a tank and containers.**
- 2. Procedures for investigation and remediation of environmental impacts, if necessary.**

V. Public Participation

The permit application and draft permit is available for public review and comment from **March 15, 2013 through May 1, 2013.**

Written comments must be submitted no later than May 1, 2013, and should be addressed to Mr. Richard Haynes at the following address:

SC DHEC
Bureau of Land and Waste Management
2600 Bull Street
Columbia, SC 29201
Phone: (803) 896-4070
E-Mail: haynesra@dhec.sc.gov

The draft permit, permit application and other related information, also known as the Administrative Record, are available for review through **May 1, 2013**, at the following location:

SC DHEC
Bureau of Land and Waste Management
Stern Building, Suite 102
8911 Farrow Road
Columbia, SC 29203

This fact sheet, the public notice and a facility location map, may be viewed on DHEC's

Website at :

http://www.scdhec.gov/environment/lwm/public_notice.asp.

VI. Public Notices

Anyone who would like to be placed on the facility mailing list to receive notification of future public notices by DHEC's Division of Waste Management should submit a written request to the attention of Ms. Norma West at:

SC DHEC
Bureau of Land and Waste Management
2600 Bull Street
Columbia, SC 29201
E-Mail: westnj@dhec.sc.gov

VII. Procedure for Reaching a Final Permit Decision

All written comments received by **May 1, 2013**, will be considered before a final decision is made on the draft permit.

Once DHEC makes its final decision, notification will be provided to:

- The facility;
- Each person who submitted written comments; and
- Anyone who has requested to receive notice of the final decision.

Any affected person who wishes to appeal a DHEC final decision may do so by filing a written request for final review with DHEC's Clerk of the Board within fifteen (15) days after notice of the decision has been mailed.

Additional information regarding appeal procedures is available from DHEC's Clerk of the Board at the above DHEC address or by calling (803) 898-3309.

VIII. Brief Summary of the Draft Hazardous Waste Permit Conditions

The draft hazardous waste permit is divided into modules. Each module and a brief explanation of the permit conditions are listed in the table below. The regulation that governs the condition(s) is also listed.

Module I	Standard Conditions	This section defines and contains standard administrative conditions that apply to all hazardous waste management facilities. <i>(R.61-79.270.30)</i>
Module II	General Facility Conditions	Conditions apply to all facilities that treat, store or dispose of hazardous waste. <i>(R.61-79.264)</i>
Module III	Containers	Conditions apply to the use and management of containers for storage at the facility. It also contains general information regarding the design, operation, and maintenance of the storage area of the facility, along with schedules and required documents that must be maintained by the facility. <i>(R.61-79.264.170)</i>
Module IV	Tanks	Conditions apply to the use and management of tanks for storage at the facility. It also contains general information regarding the design, operation, and maintenance of the storage area of the facility, along with schedules and required documents that must be maintained by the facility. <i>(R.61-79.264.190)</i>
Module V	Corrective Action for Solid Waste Management Units & Areas of Concern	<p>This section requires the facility to implement corrective action measures, when necessary. <i>(R.61-79.264)</i></p> <p>The objective of the corrective action program at a hazardous waste management facility is to evaluate the nature and extent of releases of hazardous waste and/or constituents and, if necessary, to put corrective measures in place that will protect human health and the environment.</p>
Module VI	Waste Minimization	<p>Conditions require that the facility has a program in place to reduce the volume and toxicity of hazardous waste generated and that the treatment, storage or disposal method minimizes present and future threat to human health and the environment.</p> <p><i>These conditions are governed by Section 44-56-170(A) of the 1976 South Carolina Code of Laws, as amended.</i></p>

Module VII	Land Disposal Restrictions	Conditions ensure that restricted waste is not disposed of in a land-based unit or otherwise managed unless certain requirements are met. <i>(R.61-79.268)</i>
Module VIII	Organic air Emission Requirements for Process Vents and Equipment Leaks	Conditions for the inspection of tanks, containers and process equipment that handle organic hazardous wastes to prevent the release of vapors or other emissions. <i>(R.61-79.264 Subpart BB and CC)</i>

Additional information can be found in the draft permit and the facility's permit application.
